late County Fair, in this issue of the AMERI-CAN, but want of space forbids. We will refer to it hereafter.

A Good Suggestion. It has been suggested that an invitation be extended to the soldiers who have participated in wars previous to the great rebellion, to take part in the exercises on the 30th inst. We second the motion. Let every soldier who has at any time shouldered a musket in behalf of American liberty, meet with us on that occasion, and receive the homage of a free and grateful people.

LETTER FROM WASHINGTON.

[Correspondence of the Indiana American ] WASBINGTON, D. C., SEPT. 22, 1865. Mr. Editor, - A trip from this city to Brookville, and a short stay there, revealed to me a plentiful condition of crops never before known in the West. Through all the fertile Valleys in Ohio, including the Mad River, the Muskingum and the two Miamis, the corn crop is very abundant. The same may be said of the big bottoms at the junction of the White Water and the great Miami, and also of the crops on the White Water as far up as Laurel. If the wheat crop was a partial failure, it is .. 8 00 gratifying to know that the great yield of corn will fully make up for any defi-

THE peculiar taint er infection which we call Schorula lurks ltitudes of men. It either produces or is produced by an encompetent to sustain

decay. The scrofulous contamination is va-riously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspensis, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Furify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh"

healthy, you cannot have scrofulous disease. Ayor's Sarsaparilla is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints. is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposite in the lungs, White Swellings, Debility, Drepsy, Neuralgia. Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have acces, to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importanse of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aran's SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarzoparilla in alterative power. By its aid you may protect yourself from the tuffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its pecu-liar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more of-fectual than any other which has ever been

available to them. AYER'S CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done. Prepared by Dn. J. C. AYER & Co., Practical and Analytical Chemiste, Lowell, Mass.
